MARLIN TROUSERS

Wind- and waterproof trousers in 3L Gore-Tex Crosstech® laminate with a microgrid backing, specially developed for work at sea. The trousers protect against fluid-borne infections from both humans and animals, as well as chemicals such as gasoline, battery acid, firefighting foam, hydraulic oil, and chlorine. The Marlin Trousers have several functional details such as: a raised waist with adjustable suspenders, Cordura-reinforced seat area and knees with pockets for knee pads, and spacious draining leg pockets.

FUNCTIONS

- Raised waist at the front and back
- Fixed adjustable suspenders
- Fly
- Elastic waistband with belt loops
- Cordura reinforcement at the back
- Cordura-reinforced knees with Velcro-equipped knee pad pockets
- Pre-bent knees
- Zipper at leg ends for easier dressing
- Velcro adjustment at leg ends
- Taped barrier on the inside of the leg ends to prevent capillary absorption
- Drained leg pockets with Velcro-fastened flaps
- 3L Gore-Tex Crosstech with taped seams
