CAMP OVERALL

A warmly lined and durable, wind- and waterproof overall in 2L Gore-Tex with taped seams and good breathability. The overall has waterproof reinforcements on exposed areas and several practical features: a detachable hood, a 2-way zipper from foot to waist, knee pads, and many practical pockets. The angled pockets make the Camp Overall especially suitable for those who work in a harness. With adjustable suspenders on the inside, the overall stays in place and prevents it from slipping down when you only want to remove the top part. The Camp Overall comes in two color variations to suit different work areas: one has reflective and fluorescent parts for high visibility, the other is completely solid-colored and therefore more discreet.
