

RAC JACKET

The RAC Jacket an enhanced version and has been designed in collaboration with one of our key customers in the military market. The model is developed and adapted for drivers of open vehicles and ATVs as well as field workers, but has also become a design appreciated by other departments. The RAC Jacket is reinforced at the back and the elbows and forearms but also has pocket flaps on the chest pockets and astrakhan on the sleeve pockets for displaying badges.

FUNCTIONS

- Hip-length rain jacket with taped seams
- Reinforcement sections at the elbows and lower edge at the back
- Fixed adjustable hood with steel wire in the hem to stabilise the peak so that it protects your face in the rain
- The hood can be rolled up into the collar
- Spacious zipped pockets
- Waterproof zip under the sleeves for ventilation
- Spacious draining chest pockets with pocket flaps
- Tighten at the bottom with hidden cords
- Velcro adjustment of sleeve width at the cuffs
- 2-way zip at the front
- Double edges to protect the zip
- Sleeve pockets with bellows
- Astrakhan-equipped sleeve pockets for badges
- UV/VIS/IRR
- Waterproof windproof and breathable
