AKKA JACKET

A lightweight and flexible 3L Gore-Tex jacket that is windproof and waterproof with taped seams and breathability. The Akka Jacket features ventilation openings, practical pockets, and an adjustable hood designed for helmets. The jacket was developed in collaboration with alpine mountain rescuers and is available in two color options, one of which has more reflective and fluorescent parts for higher visibility.

FUNCTIONS

- Windproof and waterproof with breathability and taped seams.
- Fixed spacious hood optimized for helmets, can be adjusted to a smaller size.
- The hood's brim is moldable to protect the face from wind and rain.
- One-way waterproof front zipper with inner flap and garage.
- Ventilation opening under the arm with waterproof zipper.
- Microphone holder on the left and right chest.
- Chest pockets with zipper closure.
- Mesh inner pocket with zipper on the left side.
- Pre-bent sleeves.
- Velcro adjustment at the cuffs.
- Width adjustment at the hem with hidden drawstrings.
- Taped barrier on the inside at the hem and cuffs to prevent capillary absorption.
